David **Brockbank**

Software Engineer

About me

Software Engineer who enjoys collaboration, problem solving, and making things.

Interests

Training in the gym, video games, socializing, snowboarding, tramping, physics, and space

Porfolio

https://davebroc.github.io/

EXPERIENCE

Fast Enterprises
Implementation Consultant
Application support work for Inland Revenue's tax software. Diagnosed and solved bugs using C# code and configuration. Worked closely with non-technical IR staff to get requirements for solutions that I would then implement.

Iris Data Science
Software developer
Design and development work on a agricultural farming PWA for Agriganics. Implemented extensive offline capabilities, workflow design, and front-end development. It is currently being used by farmers in NZ, Europe, and USA.

MTF Finance
Software Engineer Intern
C# work on upgrading MTF's internal lending software.

University of Otago
Computer Science Demonstrator
Guided students completing lab work for COSC202 - Software Development.

Brockbank Properties
Plasterer, Labourer
Installing electric fencing, building frames, concrete pouring, painting, and plastering. Occasional leadings of small teams.

EDUCATION

University of Otago Bachelor of Science
Major in Computer Science, Minor in Energy Management
GPA: 8.3/9.0 (A)

AWARDS

University of Otago 150th Entrance Scholarship
Stephen Bowater Memorial Scholarship
